*Let's go Proactive...*

## About us:

IEG is one of the leading companies who offers vast services in various lines such as Utility Modernization & Automation, Digital Integration and Condition Monitoring.

We are a wide range electrical solution provider and our commitment stands to support our customers. We offer innovative solutions at hand in a competitive, effective, reliable and safe manner.

IEG is supplying a wide range of products to supply Power Utility, Industrial and Residential needs .

Our company also offers Condition Monitoring services through a certified team using high-tech equipment.

IEG was established in the 1995 in Beirut, Lebanon. We focus on power distribution, utilities, industries, infrastructure and associated sectors, delivering responses to the challenges they face.

Our strategy for sustainable growth is centered on contributing real value to our customers, shareholders and wider society.

IEG's approach is to focus on the specific needs of each individual customer and provides a solution that delivers maximum results in conjunction with the client experts; We support our customers to achieve their targets but not doing their work.
